

Introduction

This policy applies to all companies, businesses and functional areas within the Group; and to all situations where we propose to engage with the external auditor for the provision of non-audit services.

This policy is in place to mitigate any risks threatening, or appearing to threaten, the external audit firm's independence and objectivity arising through the provision of non-audit services – namely services which:

- create conflicts of interest between the external audit firm and the Group;
- result in the external audit firm functioning in the role of management;
- result in a fee which is material relative to the audit fee;
- place the external audit firm in the position of auditing its own work; or
- place the external audit firm in the position of being an advocate for the Group.

This policy is in line with the recommendations set out in the Financial Reporting Council's (FRC's) Guidance on Audit Committees and the requirements of the FRC's Revised Ethical Standard. In line with these recommendations and requirements, an external audit firm is only appointed to perform a service when doing so would be consistent with both the requirements and overarching principles of the Ethical Standard, and when its skills and experience make it the most suitable supplier.

In addition, the Ethical Standard requires an assessment of whether it is probable that an objective, reasonable and informed third party would conclude independence is not compromised.

The approval of the Audit and Risk Committee must be obtained before the external auditor is engaged to provide any permitted non-audit services provided that between Audit and Risk Committee meetings, the Chief Financial Officer is authorised to approve and report to the next meeting any such services up to a maximum in total of £25k.

For permitted non-audit services, business units must implement procedures to identify where there is a proposal to engage the external auditor and ensure the correct approval process is followed prior entering into any formal engagement with the external auditor. Business units should ensure the appropriate justification is provided that the external auditor is the most appropriate supplier.

Business units must put in place communication plans to ensure all non-audit services purchased from the external auditor are reported to both the Chief Financial Officer and the Audit and Risk Committee.

When reviewing requests for non-audit services that are not in the 'prohibited non-audit services' list (see below), the Audit and Risk Committee will assess:

- whether the provision of such services impairs the auditor's independence or objectivity and any safeguards in place to eliminate or reduce such threats;
- the nature of the non-audit services;
- whether the skills and experience make the auditor the most suitable supplier of the non-audit service;

- the fee to be incurred for non-audit services, both for individual non-audit services and in aggregate, relative to the Group audit fee; and
- the criteria which govern the compensation of the individuals performing the audit.

Permitted audit and audit related services

- Statutory audit of the Group's consolidated financial statements.
- Statutory audits of the financial statements of subsidiary companies.
- Reporting required by law or regulation to be performed by the auditor.
- Reporting on internal financial controls where required by law or regulation.
- Extended audit work performed on financial information and/or financial controls where it is integrated with the statutory audit and performed on the same principal terms and conditions.
- Reports on government grants.

Audit related services (which are the services listed above other than the audit of the financial statements of the Group, parent company and subsidiaries), are still considered non-audit services and are subject to the approval requirements set out in this policy. It is expected that these will be approved as part of the Audit and Risk Committee review of the external audit plan.

In addition, other non-audit services may be engaged, provided that they are not prohibited non-audit services, where:

- they are closely related to the work performed in the external audit process and are largely carried out by members of the audit team; or
- for reasons of effectiveness or efficiency, it is advantageous to use the external auditor because of its knowledge and expertise.

Permitted other non-audit services

Fees

Any arrangement with the auditor that includes contingent fee arrangements is not permitted.

In addition, the total fees for non-audit services provided by the auditor to the Group shall be limited to no more than 70% of the average of the statutory audit fee for the Company, of its controlled

undertakings and of the consolidated financial statements paid to the auditor in the last three consecutive financial years. The Chief Financial Officer is responsible for monitoring this ratio.

Confirmation of independence

The Audit and Risk Committee should seek annually from the audit firm information about policies and processes for maintaining independence and monitoring compliance with relevant requirements, including those regarding the rotation of audit partners and staff.
